## Illinois Environmental Protection Agency Well Injection Permit

Land/Noise Pollution Control  
Permit No. 1975-EB-1316-OP-3

Date Issued: July 20, 1977  
Expiration Date: July 20, 1978

Cabot Corporation  
Post Office Box 188  
Tuscola, Illinois 61953

Gentlemen:

Supplemental Permit is hereby granted to the above designated permittee to dispose of increased quantities of waste from the A. E. Staley Manufacturing Co. This Supplemental Permit is based on a Supplemental Permit request and documents received by this Agency on June 28, 1977 and July 19, 1977, and on previously submitted documents which described the deep well disposal system prior to and after construction.

All inquiries should be directed to Mr. Rauf Piskin, Manager, Hydrogeology Unit, Technical Operations Section, Division of Land/Noise Pollution Control.

The provision, which permitted the Cabot Corporation to accept approximately 80,000 gallons/month waste from the A. E. Stanley Manufacturing Company in the operation permit #1975-EB-1316-OP, shall be revised as below:

1. The Cabot Corporation is permitted to dispose of up to 1,900,000 gallons per month of waste from the A. E. Staley Manufacturing Company, as described in the submitted documents.
2. This Supplemental Permit expires on July 20, 1978.

EPA Region 5 Records Ctr.

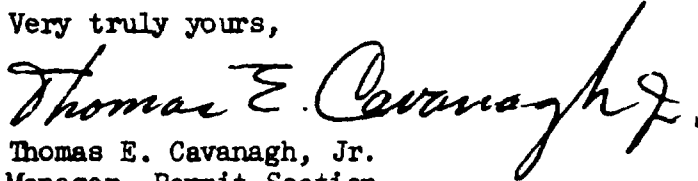

298936

2200 Churchill Road, Springfield, Illinois 62706

Page 2

All special conditions and standard conditions on the original Operation Permit issued are also applicable to this Supplemental Permit unless specifically deleted or revised in this permit.

Very truly yours,

Thomas E. Cavanagh, Jr.  
Manager, Permit Section  
Division of Land/Noise Pollution Control
